

Our year in review

2021

Why we do it:

Each and every project we've touched since the inception of WORD in 2017 has been with the intention of inspiring the eternally burning fire that lives within each and every one of us. A homage to the multihyphenate that sits at the intersection of our brain, heart and spirit.

Our pledge is to continue to push for deep conversation, pull up for visibility, constantly shake the table unapologetically & keep fanning your flame.

Thank you for inspiring us.

This is how we hired:

221

Independent contractors and small businesses

99%

People of color & poc owned small businesses

68%

Women and women owned businesses

We really
fu*cked
shit up
